

G. Rodotheatos, researcher and Phd. Can. with EKePEK, participated as an Instructor to the “Weapons of Mass Destruction in Maritime Interdiction Operations” Seminar, that took place last week (2-6 June 2014) at NMIOCTC’s premises in Souda Bay, Crete. The topic of his presentation was “Disarmament as a pillar of Weapons of Mass Destruction prohibition. Examining the option of weapons’ destruction on the High Seas”, throughout which Syria’s chemical weapons destruction in the Mediterranean Sea was elaborated as a case study.
