

Tsaltas G. (editing-presentation)

publ. I. Sideris, Athens, 2008

Proceedings of the conference entitled "Environment and Maritime Transportations in search of sustainable mobility: Planning and Implementation of interventions for maritime transportations and the environmental protection in the European Union, the Mediterranean and South-Eastern Europe" (island of Chios, 2007). The 625 pages volume comprises articles on maritime transports and the environment.

The book was presented on Friday 5 Decemember 2008, at the European Parliament Information Office for Greece, in a session organized by EKePEK during the scientific meeting "Union for the Mediterranean. Political visions and aquatic stories: Environmental challenges for the marine space".
