

Welcome to our website.

The European Centre was founded on February 2002 and administratively forms part of the Department of International and European Studies in order to promote the science of sustainable development and the elaboration of proposals on environmental governance. It has since developed a multifaceted action in the fields of research, scientific congresses and summer school programs as well as in the field of collaboration with civil society and local administration entities.

The present website offers you an immediate and functional access to general information on our Center, its actions as well as its latest news and announcements.

I wish you an enjoyable navigation.

The Director,

Professor Gr. I. Tsaltas
